COWBOY GLOBAL EXPRESS

COWBOY GLOBAL EXPRESS (CGE)

LOGISTICS & TRANSPORTATION EXECUTION

01.

AGILITY OF A LOGISTICS SPECIALIST.

02.

DISCIPLINE OF DEFENSE EXECUTION.

03.

REACH OF GLOBAL PROPORTIONS.

THIRD- AND FOURTH-PARTY LOGISTICS EXECUTION FOR AEROSPACE, DEFENSE, AND MISSION-CRITICAL PROGRAMS

COWBOY AEROSPACE

COWBOY GLOBAL EXPRESS IS THE LOGISTICS EXECUTION ARM OF COWBOY AEROSPACE.

COWBOY AEROSPACE

Supply Chain & Sustainment Support
for Aerospace & Defense Programs

Cowboy Aerospace is an SBA and HUBZone distributor delivering fully traceable hardware and white-glove service for aerospace and defense customers. The company supports multi-billion-dollar procurement pipelines with strong OEM and DoD relationships, built for speed and transparency—combining boutique agility with enterprise-level compliance.

Cowboy Aerospace supports production and sustainment programs through disciplined supply chain execution, inventory strategies, and performance-driven logistics solutions.

WHO WE ARE & WHERE WE OPERATE

01. Cowboy Global Express (CGE) is a veteran and minority owned logistics and transportation provider supporting aerospace, defense, and other mission-critical industries.

02. CGE partners with Cowboy Aerospace to extend aerospace and defense supply-chain expertise into disciplined freight movement, transportation coordination, and logistics execution—providing an integrated, end-to-end supply chain solution.

03. With over 20 years of combined experience, CGE supports defense-aligned logistics environments, U.S. military service branches, and aerospace OEM supply chains.

LOGISTICS & TRANSPORTATION EXECUTION

Transportation & Freight Coordination
Domestic and international ground and air transportation supporting aerospace, defense, and industrial programs, including FTL, LTL, expedited, and air freight aligned to production schedules and sustainment timelines.

Third- & Fourth-Party Logistics (3PL / 4PL)
End-to-end logistics execution managing carrier selection, routing, scheduling, and shipment oversight across complex, multi-stakeholder supply chains.

International & Multimodal Logistics
Execution across air, ocean, inland waterway, and ground modes, including port-to-door movements, barge operations, charter lift, drayage, cross-dock, and transload operations.

Freight Forwarding & Export Support
Domestic and international freight forwarding executed with awareness of ITAR, EAR, and export-controlled material requirements to support customer compliance obligations.

Program & Operational Logistics Support
Logistics aligned to program requirements, operational tempo, and regulatory considerations common to aerospace and defense environments, supporting continuity across production, sustainment, and program-driven operations.

Oversized, Heavy-Lift & Project Cargo
Coordination of cranes, barges, route surveys, permitting, escorts, and specialized equipment to support complex and non-standard freight.

COMPLEX, REGULATED & DEFENSE-ALIGNED EXECUTION

Hazardous & Regulated Freight

Execution of hazmat, oversized, and non-standard freight associated with aerospace and defense platforms.

Site-Level Material Handling & Coordination

Coordination of cranes, forklifts, packaging partners, drayage providers, and specialized vendors for loading, unloading, staging, and transfer of complex freight.

Defense-Aligned Logistics Execution

Operations conducted within defense and government-adjacent logistics environments, including experience with U.S. Department of Defense transportation frameworks and SDDC-governed movements.

DIFFERENTIATORS & PAST PERFORMANCE

WHAT SETS COWBOY GLOBAL EXPRESS APART

- Clear communication treated as an operational function
- Real-time shipment visibility from pickup through final delivery
- Proven execution in high-accountability logistics environments
- Defense-aligned and government-adjacent logistics experience
- Veteran-led, execution-focused team
- Disciplined coordination across complex logistics ecosystems

PAST PERFORMANCE & EXPERIENCE

- Over 20 years supporting logistics and transportation operations in DoD-aligned environments
- Experience supporting U.S. military service branches and Tier-1 aerospace and defense prime contractors
- Freight movements executed under Department of Defense transportation frameworks, including SDDC governance
- Support for defense production and sustainment programs
- Execution of complex project freight and unit-move logistics
- Domestic and international multimodal transportation with export-control awareness
- Emphasis on proactive communication, traceability, and on-time execution

INDUSTRIES, COMPLIANCE & CORPORATE IDENTIFIERS

GOVERNMENT & COMPLIANCE READINESS

01. Cowboy Global Express is structured to support logistics and transportation operations within government, defense, and aerospace environments requiring regulatory awareness and credentialed operating authority. The company maintains active federal transportation and freight forwarding authorities to support compliant domestic and international logistics execution.

02. Logistics activities are performed with awareness of export control considerations, including ITAR and EAR requirements, and with disciplined attention to documentation accuracy, shipment visibility, and cross-border regulatory coordination to support customer compliance obligations throughout the shipment lifecycle.
